

## Two promises

I have been searching,  
all of my life for you.  
Patiently waiting,  
never knowing where you'd be  
And then I found you,  
your warm smile reaching out to me

And I made a promise,  
I opened my heart to you,  
we started a journey,  
side by side and hand in hand.

Your warm embrace,  
your soft lips kiss,  
your arms around my neck, so sweet,  
I feel it now,  
with every beat of my heart.

But you had another,  
you couldn't let go of the past.  
I watched you struggle,  
Holding to what already was lost.  
Your smile turned to sadness,  
I watched as you let go of me.  
And held to your promise.

One promise made,  
So long ago,  
One promise yet to be fulfilled,  
I wait between,  
with every beat of my heart.
